

Aequalis Consulting challenge you and your team to participate in the 2009 “CFO Challenge” – The Ultimate Peak Performance and Executive Challenge Adventure.

We believe "Leadership is like gravity. You know it's there, you know it exists, but how do you define it?". Our primary aim is to take like minded people on a once in a lifetime journey giving you the opportunity to become more confident and capable, you will learn to think laterally and make the right decisions quickly, under pressure. Above all, you will develop superior leadership skills that will allow you to effectively and efficiently lead, manage and develop peak performance capabilities. The event will be a fundraiser with a \$100,000 goal for this years chosen charity 'Cure for Life'.

In August 2009 we will embark on our first annual "CFO Challenge" we will leave our suits behind and get out of the boxes that define us.

We will follow in the foot steps of our heroes along the Kokoda Trail and experience the Kokoda Spirit first hand, the spirit of courage, sacrifice, endurance, selflessness, mateship and maybe something else?

When you walk the Kokoda Trail with all its obstacles and challenges you will feel the aura and spirit of the young men who defeated an enemy, an enemy who had never been conquered, an enemy that had never tasted defeat. They overcame overwhelming odds and atrocious conditions, out numbered and out gunned their victory which was possible due to their trust and respect for each other, their dependence on each other, their ability to never give up, to hang in there when all seemed lost.

Join us on this challenging 9 day adventure through some of the worlds most remote jungle.

Places are strictly limited.
